

From Pascal:

I'm 16 years old and I've been attending this class for about 10 years.

I like coming because this is not school this is just fun and talking. Since I started here ~~before~~ 10 years ago I improved my English ~~really~~ a great deal just with "talking" and "hearing". Specially in school I noticed my advantage compared ~~to~~ to the other children in class. Now I can speak ~~so~~ really good English and my advantage compared to the other children is ^{even} bigger than before.
